

“What is My Teenager Doing to Me?!”

Using Therapeutic Assessment to Shift Projective Identification in Adolescents and Their Families

Presenters: Stephen E. Finn & Noriko Nakamura
Co-sponsored: ACTA, SPA(The Society for Personality
Assessment), TAI(the Therapeutic Assessment Institute)

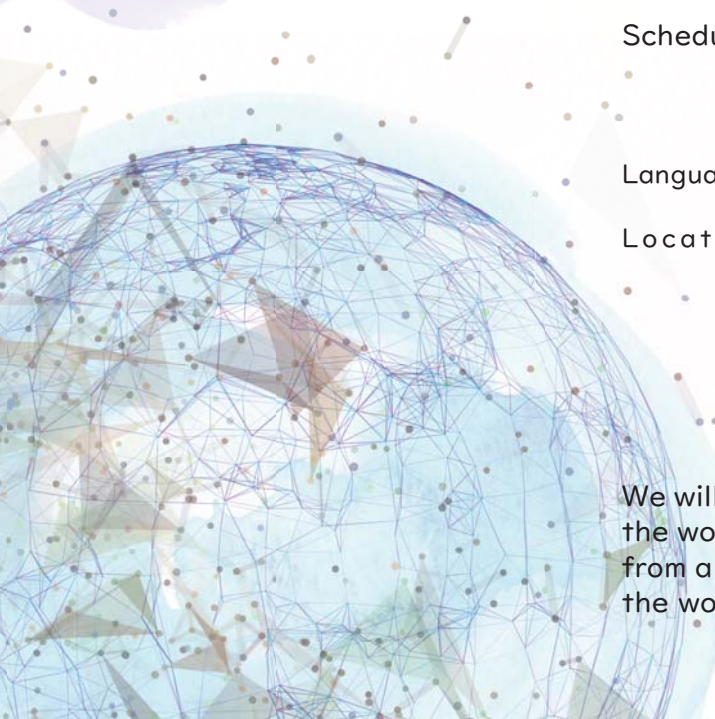

This workshop gives participants the unique opportunity to observe and collaborate in a live Therapeutic Assessment of an outpatient adolescent and her/his family. Drs. Finn and Nakamura will demonstrate how to use collaborative psychological assessment to shift problematic projective identification between teenagers and their families. The presenters will address how to engage reluctant adolescents in an assessment, how to manage issues of confidentiality and autonomy, and how to maintain an alliance with teens and their caregivers simultaneously. Additionally, Drs. Finn and Nakamura will demonstrate how to conduct a family session as part of an assessment and how to give assessment feedback to adolescents and their caregivers. Psychological assessments conducted according to the principles of Therapeutic Assessment have been shown in controlled research to yield lasting benefits for teens and their families.
